Custom laser cut tools for the leather craft industry.

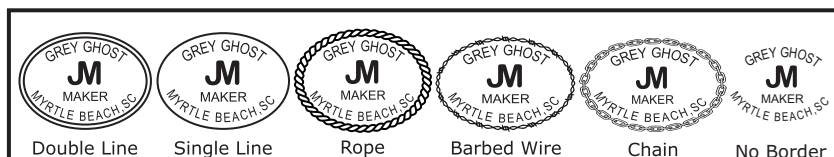

Custom maker stamps - Made from your own logos or patterns. If you don't have one, we can create one that will suit your needs perfectly! All designs are laser cut into high quality black Delrin (acetal) blanks for super crisp stamping impressions. Much more cost effective than steel stamps, you can get several sizes of your stamp for the cost of a single steel stamp. All of my maker stamps feature a highly visible center line marking for easy stamp alignment. A vinyl protective cap protects the impression end of the stamp when not in use and is included with the stamp. Prices start at \$50.00 for 1/2" stamps, \$60.00 for 5/8" to 1" in diameter, \$70.00 for 1-1/4" to 1-1/2" and \$80.00 for stamps over 1-1/2" up to 2". For custom artwork or logos a modest setup fee may apply.

The above examples are the most common styles. The range of possibilities are infinite. **Your custom designs are welcome!** Hand Maker stamps are available in sizes ranging from 1/2" to 2" in diameter. You can use different fonts but I suggest something simple like Arial for optimum clarity.

Stamps are designed for use on cased vegetable tanned leather only!

Impression extends the full width of the blank for better visibility and a more even impression. Center line aids in accurately lining up the stamp.

The above border styles are available.

Front Face is ground flat for easier alignment!

For those who prefer to use a press, these custom embossing plates are easy to use and create a beautiful impression. Prices start at \$60.00. These are available in much larger sizes than are possible in a hand stamp. I cut them from 1" thick stock for use in an arbor style press and 1-1/4" thick stock for use in a clicker press.

These are just a few examples of clipart that can be placed into the center of your stamp.

Self inking rubber stamps with your logo are also available. The same artwork that was used to create your maker stamp is used for the rubber stamp. These can be used to personalize invoices, letterheads, etc. Prices for these start at \$25.00 for a small stamp and \$35.00 for a large stamp. Black ink is standard.

(Includes Instructions) \$65.00

Guitar Strap Template-Full Set
(Includes instructions)
\$125.00

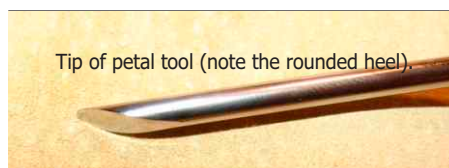

Custom pattern transfer sheets.

Laser engraved into .030 white Delrin, these enable you to transfer your own carving patterns to the leather prior to carving, eliminating the tedious tracing procedure. You supply a line drawing of your pattern on plain white paper and it will be transformed into a transfer sheet. Since the lines of your pattern will be raised on the transfer sheet, an indented line is left in the leather for your swivel knife to follow. These sheets are thin, flexible, semi-transparent and amazingly durable. Prices start at \$35.00.

Miniature and full size petal lifting tools

Made from high quality tool steel, hardened and tempered, these tools are meticulously ground and polished to make petal lifting almost effortless. The heel of the tool has been rounded to help prevent it from making a mark on the leather. Available in sizes 0,1,2,3 and 4. The graver style handles feature a flat face which is aligned with the bottom face of the tool. This helps to provide maximum clearance when inserting the tip into the leather. It has an added benefit of keeping the tool from rolling around your bench. The petal lifters are \$30.00 each for sizes 0 thru 3 and \$35.00 for size 4. Buy the complete set of five for \$145.00. Other sets are priced at \$115.00 for sizes 0-3 and \$125.00 for sizes 1-4.

Tip of petal tool (note the rounded heel).
